

Ramco Systems Executive Biographies

P.R.Venketrama Raja Vice Chairman, Managing Director & CEO

P.R. Venketrama Raja (PRV) established Ramco Systems in 1989 with a mission to create a world-class information technology company focused on enterprise management applications and emerging technologies. Since then, Ramco Systems has become one of the top 100 enterprise solution providers in the world. Under PRV's leadership, Ramco co-creates highly flexible solutions – based on its unique model-based platform, VirtualWorks®. The platform offers well over 1,000 pre-configured, re-usable enterprise-class components – enabling more than 450 customers worldwide to maximize change and spend more time creating and driving innovations that help them win in the fiercely competitive global business environment. PRV's basic philosophy has been, "technology keeps you ahead." Recognizing the need for ICT (information and communications technology) that integrates real-time actionable business intelligence with live business processes and data to enable immediate response to change, Ramco's customers no longer have to force-fit their business through rigid technology.

An astute businessman with a passion for technology, PRV has chartered an ambitious growth path for Ramco Systems in the global market. He holds a Bachelor's Degree in Chemical Engineering from the University of Madras, India and a Master's Degree in Business Management from the University of Michigan, Ann Arbor, USA.

Vivek Luthra Senior Vice President, Global Head of Services

With more than 13 years of experience in global business and information technology consulting, Vivek Luthra is a leading senior management professional specializing in technology and business process outsourcing. He has held middle and senior management roles in business development, strategy and alliances, sales and marketing, and account management and operations—with a focus on financial and telecom services—in the United States, Europe and APAC markets.

As Global Head of Services at Ramco Systems, Vivek maintains profit and loss responsibilities for all Ramco Systems' global services, vertical offerings and platform-based solutions offerings. Prior to joining Ramco in 2007, Vivek worked with Infosys, PricewaterhouseCoopers, Schlumberger and several technology start-up companies. He holds a Bachelor's Degree in Engineering, Instrumentation & Controls from the Delhi Institute of Technology at Delhi University, and a Master's Degree in Business Administration from the Indian Institute of Management in Calcutta, India.
