## Viadux goes digital on Ramco ERP on Cloud with Mobility and Analytics, replaces 8 disparate legacy systems

Goes live across 5 entities in 10 locations across Australia

**Sydney, Australia / Chennai, India – October 26, 2017** – Australia based leading manufacturer and supplier of water and environmental solutions, [Viadux](#) announced the successful implementation of [Ramco ERP on Cloud](#) across 5 entities in 10 locations.

With the implementation of Ramco ERP on Cloud, Viadux replaces 8 disparate systems including both home-grown systems and applications that were earlier on Infor, Cognos, and ADP. The high cost of managing aging technology, multiple disparate systems that lacked seamless integration and less than efficient business processes were the key drivers for Viadux to embark on a transformation last year.

On going live, Viadux actively manages 1400+ customers and 2000+ suppliers spread across multiple locations through Ramco ERP on Cloud. With Mobility and Analytics, the Cloud ERP handles planning led by MRP for 25000 items, handles 500+ customer orders and 800 shipments per day on average. Viadux has also implemented complete [HCM](#) including [Talent Management](#) and [Payroll](#) to automate its HR operations. With rich visualization and dynamic dashboards, Viadux has begun to get vastly improved visibility into operations in real-time and take strategic decisions based on data.

**Michael Negri, CEO, Viadux Pty Limited**, said: "8 months since we processed our first order in Ramco's end to end ERP system including HCM, Payroll, Finance and Sales, we are starting to simplify the backend of our business, we are seeing the benefits of improved visibility through the analytics and develop processes that create a leaner, more responsive customer orientated business. It has been an important initiative in our journey to become far more responsive and a real-time enterprise for our customers. We have begun our journey to become leaner, more agile, and a platform-driven business with much better and automated processes, mobility and insightful dashboards. Despite challenges of a complex, big-bang implementation, we have done well. We have got rid of high cost, legacy ERP and other systems which were holding us back, and now with this new cloud platform, we are looking forward to accelerating our growth and profitability."

**Virender Aggarwal, CEO, Ramco Systems**, said "Our success story in replacing multiple disparate legacy systems with future-ready ERP has been time and again proven. With simplicity of use, mobility and comprehensive process integration all under one umbrella, Ramco ERP has been gaining an edge over other ERPs, in the market. The successful go-live at Viadux proves it yet again that modern, cloud based platform like ours unshackles the operating model and lowers the cost."

Ramco ERP integrated with Finance and HCM is a unified ERP platform that has been delivering significant innovation, cost savings, and superior business processes to organizations, globally. Ramco Finance & Accounting Suite was recently positioned as a niche vendor in [Gartner's Magic Quadrant for Cloud Financials](#). With focus on innovations in usability, context-awareness, mobility, overall flexibility, apart from comprehensive set of functionality, Ramco has been enabling smooth transitions possible for customers.

### About Viadux:

Viadux is a born again distributor of water network solutions, providing pipes and valves to transmit fresh water across the country. After a recent acquisition by private equity the company is embarking on modernizing and streamlining its business to improve the customer experience. With a foundry based in the Gold Coast producing high quality ductile iron valves and fittings and distribution centers in all major cities in the country, Viadux is a leader in the industry. At Viadux we believe in always looking to the future to what is possible, innovation and improvement is at the core of how we will improve the customer experience.

Viadux has over 200 employees across 10 sites around the country, and has a sku count of over 40,000.

**About Ramco Systems:**

Ramco is a fast-growing enterprise software player disrupting the market with its multi-tenant cloud and mobile-based enterprise software in the area of HCM and Global Payroll, ERP and M&E MRO for Aviation. Part of the USD 1 billion Ramco Group, Ramco Systems focuses on Innovation and Culture to differentiate itself in the marketplace. On Innovation front, Ramco has been focusing on moving towards Cognitive and Robotic ERP with features such as **Bot It** – which allows users to complete transaction using natural conversations; **Mail Bot** – transact with the application by just sending an email; **HUB It** - a one screen does it all concept built to address all activities of a user; **Thumb It** – mobility where the system presents users with option to choose rather than type values and **Prompt It** – a cognitive ability which will let the system complete the transaction and prompts the user for approval.

With 1600+ employees spread across 24 offices, globally, Ramco follows a flat and open culture where employees are encouraged to share knowledge and grow. No Hierarchies, Cabin-less Offices, Respect work and not titles, among others are what makes the team say, Thank God it's Monday!

**Only APAC vendor to be positioned in Gartner Magic Quadrant for Cloud Financials & Cloud HCM Suites; Enters as a Contender in The Forrester Wave™: SaaS Human Resource Management Systems, Q3 2017; Recognized as a 'Highly Recommended' Payroll Software Supplier of the Year 2017 by Global Payroll Association; Positioned as 'Achiever' in Everest Group's Multi-Country Payroll Platform Assessment**
