Asia's premier engine teardown and lifecycle support hub,
Global Engine Maintenance India Selects Ramco Aviation
To digitize and streamline its aircraft engine teardown operations

Chennai, INDIA – October 09, 2025 - Global aviation software provider [Ramco Systems](#) announced that it will implement its next-gen [Aviation Software](#) at [Global Engine Maintenance India Private Limited \(GEM\)](#), a fully owned subsidiary of Global Engine Maintenance LLC USA, a global leader of CFM56-7B/-5B/-3 complete MRO solutions. Ramco's advanced software solution will enable GEM to digitally manage the Engine to USM cycle, ensuring faster turnaround times, improved material availability and kitting, and enhanced traceability and regulatory compliance.

With modules for Engineering & Tech Publications, Maintenance, MRO Contracts, Pricing & Billing & Part Sales, Supply Chain Management and Finance & Accounting Modules, Ramco Aviation Software will provide GEM India with a single integrated platform that streamlines configuration & work package control and digital maintenance execution. The specialised solution for Engine MRO operations will provide end-to-end visibility of operations and supply chain, automates compliance & audit readiness, and integrates finance with operations.

Ramco's digital tools such as the Engine Visit Hub, Ramco Anywhere mobile apps for mechanics and warehouse staff and real-time dashboards, will help GEM India improve process efficiencies, enhance productivity and achieve paperless operations.

Senior leaders from GEM India and Ramco Systems at the signing ceremony held at Ramco's office in Chennai

James Ranjith Jeyakumar, General Manager, Global Engine Maintenance (GEM) India, said, "We were looking for a solution provider who could not only streamline our operations but also lay a scalable foundation to support our future expansion into full engine overhaul services. Ramco Aviation Software stood out with its deep engine MRO capabilities, end-to-end integration and ability to manage the complete engine lifecycle. These strengths were instrumental in our selection. We are confident that Ramco Aviation Software will enable us to drive greater operational efficiency, strengthen cost control, ensure audit readiness and scale seamlessly as we grow."

Sam Jacob, EVP & Head- Aviation, Aerospace & Defense, Ramco Systems, said, "GEM India's decision to adopt Ramco Aviation Software is a strong endorsement of our product vision and technology leadership in

aircraft engine MRO software. Our platform is designed to help organizations like GEM India optimize turnaround times, ensure compliance and strengthen financial control across their engine MRO operations. We look forward to collaborating closely with GEM India to transform their business and support their plans to expand into full engine overhaul services.”

[Ramco Aviation Software](#) is trusted by 24,000+ users to manage 4,000+ aircraft globally. With 90+ Aviation organizations onboard, Ramco is the solution of choice for top Airlines, 3rd party MROs, large Heli-Operators, leading Defense organizations, and major Urban Air Mobility companies around the world. Available on cloud, Ramco Aviation Suite provides accessibility with ‘Anywhere Apps’, significantly accelerating organizational efficiency and agility. Ramco is changing the paradigm of enterprise software with Artificial Intelligence based solutions, intelligent voice enabled user experience, and advanced features such as digital task cards, offline maintenance capability, conversational chatbots, HUBs and cognitive solutions.

About Global Engine Maintenance (GEM) India:

GEM India is the subsidiary of [Global Engine Maintenance \(GEM USA\)](#), part of the SPI Group—a globally recognized enterprise with 40+ years of excellence in aviation, logistics, and engineering. Established in 2025, GEM India is a strategic expansion to bring world-class teardown, repair coordination, and logistics services to the Asian aviation market.

Our facility, based in Chennai Free Trade Zone (CFTZ), enables duty-free, rapid operations aligned with global best practices standards. With a focus on the CFM56 engine platform, we serve global airlines, lessors, OEMs, and Teardown with traceable, cost-effective lifecycle solutions.

About Ramco Systems:

Ramco Systems is a world-class enterprise software product/ platform provider disrupting the market with its multi-tenant cloud and mobile-based enterprise software, successfully driving innovation for over 25 years. Over the years, Ramco has maintained a consistent track record of serving 800+ customers globally with two million+ users and delivering tangible business value in Global Payroll, Aviation, Aerospace & Defense, and ERP. Ramco’s key differentiator is its innovative product development approach through its revolutionary enterprise application assembly and delivery platform. On the innovation front, Ramco is leveraging cutting-edge technologies around Artificial Intelligence, Machine Learning, RPA, and Blockchain, amongst others, to help organizations embrace digital transformation.
